Mohammad Ifaz Alamgir

Software Engineer | Full-Stack Development

Dhaka, Bangladesh • +880-1747-572247 • ifazalamgir7@gmail.com • LinkedIn • Portfolio • GitHub

Computer Science graduate from BRAC University with hands-on full-stack development experience and a strong foundation in relational databases and SQL. Detail-oriented and methodical, with a consistent focus on correctness, edge-case handling, and system reliability across every project undertaken. Comfortable working independently across the stack, communicating technical concepts clearly, and adapting quickly to new tools and codebases.

PROJECTS

Shomadhan – Smart Civic Issue Tracking System GitHub | Live Demo
React.js, Node.js, Express.js, MongoDB, JavaScript, REST APIs, JWT Mar 2026 – Apr 2026

- Built and deployed a full-stack MERN civic complaint platform with NLP auto-classification, SLA monitoring, and duplicate detection via geographic proximity analysis across three user roles.
- Achieved a 97 Lighthouse performance score and 100 Best Practices; implemented role-specific REST APIs with input validation at every boundary.

ShastoSheba – Telehealth Platform for Bangladesh GitHub
React, TypeScript, Node.js, Express, MongoDB, JWT, Twilio Video, Google Gemini 2026

- Built a telehealth platform for in-person/video consultations with Ai-Health assistant, messaging system, prescription history and role-based access control across patient, doctor, and admin flows.
- Integrated Twilio Video for live consultations and a Gemini-powered bilingual (English/Bangla) patient assistant.

FindYourTurf – Sports Venue Booking Platform GitHub
PHP, MySQL, JavaScript, PHPMailer 2026

- Designed a normalized MySQL schema with complex JOIN queries powering booking history, multi-filter search across location/price/capacity, and real-time availability validation.
- Built role-based dashboards for users, owners, and admins with automated email notifications on booking events.

EchoMinutes – AI Meeting Assistant GitHub
Python, Whisper, LangChain, Mistral, ChromaDB, Streamlit 2026

- Built an AI pipeline converting a recording or YouTube link into a transcript, executive summary, and action items, using local Whisper transcription and a map-reduce LangChain summarization chain.
- Implemented a retrieval-augmented chat interface (ChromaDB) so answers are verified against and grounded strictly in the source transcript.

Fraud Detection – EDA and Classification Pipeline GitHub
Python, Scikit-learn, SMOTE, Pandas, Matplotlib, Seaborn 2026

- Built an end-to-end ML pipeline on 1.2M+ transaction records with preprocessing, SMOTE resampling, and feature engineering.
- Reached an 82% F1-score and 85% ROC-AUC with a Random Forest classifier, explicitly validated against data leakage between train and test splits.

RESEARCH

Hallucination Detection in Bangla LLM Output – Undergraduate Thesis GitHub
Python, BERT, mDeBERTa, LLaMA 3, Gemma 3, Phi-4, NLI May 2025 - June 2026

- Built a six-signal hybrid verification pipeline detecting hallucinations across QA, summarization, and translation tasks in Bangla LLM output.
- Extracted attention weights and logits across 32 transformer layers (363 features/token) from LLaMA 3; classifiers reached 0.687–0.830 AUC over 9,000 benchmarked evaluations.

EDUCATION

BRAC University Sep 2022 – Jun 2026
Bachelor of Science in Computer Science Dhaka, Bangladesh
GPA: 3.90/4.0, Dean's List Coursework: Software Engineering, Database Systems, DSA, System Design, Machine Learning

SKILLS

Languages: JavaScript, TypeScript, Python, SQL, PHP
Frameworks: React, Node.js, Express.js, REST APIs
Databases: MySQL, MongoDB, Relational Database Design, Normalized Schema Design
Tools: Git/GitHub, Docker, CI/CD pipelines, Postman
Core Concepts: Data Structures and Algorithms, Software Testing Fundamentals, SDLC, Agile Methodologies

CERTIFICATIONS

DataCamp (2026): Data Manipulation in Python, Data Manipulation with Pandas, Cleaning Data in Python, Introduction to NumPy GitHub
LeetCode: 50 Days Badge (50+ consecutive day problem-solving streak); Top 50 SQL practice set completed
